COMMENTS: The area has a mid-latitude four-season year. Bright sunshine occurs on 57% of the year's daylight hours, ranging from a low of 34% in December to a high of 76% in August. The low temperature for the year will be near 19° some windless winter sunrise, while the high will be around 95° some sunny summer afternoon. Precipitation is moderate, with a distinct maximum in the autumn and early winter. Snowfall is light and extremely variable from year to year, and rarely remains on the ground past noon of the next day. Most of the resort facilities at the nearby beach resort of Borik are open only during the summer. A typical summer afternoon will be very sunny, not very humid, hot, and with a one in ten chance of significant showers. Summer nights are mild and humid, with typically clear skies.
