

SUNSHINE GUIDE TO THE LAS VEGAS RESORT AREA, NEVADA

LOCATION: Las Vegas is located near the southern tip of Nevada, just west of its border with Arizona. The city is situated in one of the many basins of the geologic *Basin and Range* province, at an elevation of some 2,000 feet above sea level. Las Vegas is one of the world's premier resort areas, and everyone should see it at least once. It contains more hotel rooms than any other city in the world.

COMMENTS: Bright sunshine is likely on 84% of the year's daylight hours. This might range from a low of 77% in December and January, to a high of 93% in June. The year's lowest temperature should be close to 20°, and the highest should be near 113°. Sensible afternoon temperatures (the ones you actually feel) will be from 4° to 15° cooler than actual ones. Las Vegas is a world-class destination that everyone should visit at least once in their lifetime. Gambling is the chief attraction, but there are world-famous entertainers, and free shows and displays of every kind. Then there is simple the sight of the Strip itself. Money talks in Las Vegas. If you can pay for it, you can have it. Very few people can walk through those rows of flashing, whirring, ringing, and rattling slot machines without stopping to drop at least one coin in them. Moreover, you have to pass through them to get to the hotel registration desk, the restaurant, the restrooms, or anything else. Once most people drop that first coin, they're hooked! In case you didn't know, the odds are against you in every game in town, despite cleverly-worded ads that make it sound otherwise.
