

SUNSHINE GUIDE TO THE CABO SAN LUCAS AREA, MEXICO

LOCATION: The Cabo San Lucas resort area is located at the tip of the Baja California peninsula in northwestern Mexico. The area follows Highway 1 along the coast of the Sea of Cortez from San Jose del Cabo on the north to the very tip of Baja California. Elevations in the developed area are all within a few hundred feet of sea level, although mountains rise steeply behind the coastal strip.

COMMENTS: Bright sunshine is likely on 78% of the year's daylight hours. This might range from a low of 71% in December and January, to a high of 87% in June. The year's lowest temperature should be close to 48°, and the highest should be near 100°. Sensible summer afternoon temperatures (the ones you actually feel) will be up to 5° warmer than actual ones. It should be noted that this table applies only to the more protected Sea of Cortez side of the Cabo San Lucas area. The Pacific shores will be significantly cooler, and much foggier.
